	<b>Training Occupational Health and Scientific Research Group A Scientific research</b>  <b>Assignment Wednesday (Group work)</b>	
--	---	---

### Learning objectives:

- To be able to take an interview with researchers or representatives of a scientific institute/university

**Instructional Method:** Working in groups (e.g. groups of 3 persons, depending on the person(s) to be interviewed)

**Suggested time :** 45 min ( for the preparation)

### Description of the assignment :

*You will be working in groups of 3 colleagues for this assignment.*

*First, you will receive information on the institute/organization that you will visit or on the researcher who you will interview*

*Second, you have to prepare the visit or the structured interview. “What do you want to know at the end of the visit or interview? “*

*Below you may find some questions to start with but we are convinced that you can come up with many more questions.*

- Who is who? What is what? (depending on who you will interview or which institute you will visit)
- Where does the institute/ organization (of the researcher) situate itself in the landscape of health care and research?
- Target Audience ?
- Why did you choose this career?
- Research topics?
- Funding
- ....

You may use the knowledge infrastructure (knowledge dissemination) schedule, if you like

*Third, agree on the practical organization during the visit or interview*

- Who takes minutes ?
- Who asks questions about what specific topics ?
- ....
