	Training Occupational Health and Scientific Research Group B Surveillance	
Assignment	Workplace visit	B 3.3 ass (Group work)

Learning objectives:

- To be able to perform a walkthrough surveillance of health risks in the working environment (workplace inspection).

Instructional Method: Working in groups (6 different groups of 3 persons)

Suggested time : 60 min

Description of the assignment :

You will be working in groups of 3 colleagues for this assignment. One has to fill in the checklist.

There are 3 workplaces that will be inspected. Each work place will be inspected by 2 groups.

The 3 workplaces are:

1. *The cleaning department of the hotel*
2. *The kitchen of the hotel*
3. *The maintenance department of the hotel*

If not possible there is as a reserve: the hotel lobby, the restaurant, your hairdresser.

Each group will visit one workplace and tries to identify, characterize and evaluate all the health and safety risks using (a part of) an OiRA checklist. One will look, hear, smell, feel and talk to the workers. If possible measurements (e.g. with smartphones) may be carried out.

The checklist will be handed out at the beginning of the assignment.

The group has to

- *fill in the checklist*
- *decide which are the 3 main risks which should be given priority*
- *propose measurements to be carried out*
- *propose technical and organizational control measures for primary prevention of the risks.*

Each group will present its conclusions to the other group who did the same workplace.
